

IMPORTANT INFORMATION **REGARDING YOUR FINANCIAL** **RESPONSIBILITY**

Orthopedic Surgery Center of Orange County uses the “Global Fee” approach for pricing. This means that we have established one price for each procedure code. The global fee remains the same regardless of minor variations in surgical supplies or time used. The global fee includes Admitting Unit, Operating Room and Recovery Room/Discharge. It may not include durable medical equipment (crutches, post-op shoes, slings, ice wraps, etc) and/or implants.

In addition to our bill, you may receive separate bills from your Surgeon, your Anesthesiologist, a Registered Nurse First Assistant, Pathologist and Durable Medical Equipment Provider.

If you are covered by health insurance, we will be glad to submit a claim for you. It is vital that the insurance information provided is accurate and up-to-date.

We will contact your insurance company approximately one week prior to surgery to obtain current benefit information. If you have not met your deductible and/or have a coinsurance responsibility, our insurance department will contact you approximately one week prior to surgery to advise you of your estimated financial responsibility.

If you have any questions regarding your estimated financial responsibility, please contact our staff at 949.999.4501.

Your estimated financial responsibility must be paid on your surgery date.
